

OSHA: An Introduction

(Asset and Technical Services Engineering Job Classes)

No losses are acceptable when it comes to workplace injuries or fatalities, so the Occupational Safety and Health Administration (OSHA) was established to develop and enforce job safety and health standards. Introduce your employees to this agency and ensure that they gain a deeper understanding of its goals.

As part of your *Asset Services New Hire Certification Program*, please click on [CBRE Foundations](#) to complete this course in RedVector.

Make sure you select the "Agree" button to acknowledge you understand the process.
(Do not click "Agree" if you see a blank window.)

If you experience difficulties with login information, please contact [Tim Watkins](#) for assistance.
